<sup>1</sup> A.R.F.'s pet euthanasia guideline: Every pet that comes under A.R.F.'s care is valued and deserving of medical treatment. A.R.F. provides medical care for all pets regardless of their need. A.R.F. euthanizes pets only when they are suffering and there is no medical treatment that can heal or ease their pain, or when there is no way to rehabilitate extremely aggressive or dangerous behavior.

<sup>2</sup> Died in care means a pet that has passed naturally or was humanely euthanized to end their suffering due to a non-survivable medical condition. The 2020 increase for died in care numbers is attributed to more accurate record keeping methods as well as additional high-risk case intake.
